In-state enrollment as a share of overall enrollment declined slightly from 85.4 percent in Spring 2018 to 84.1 percent in Spring 2019. The share of out-of-state residents increased from 9.5 percent to 10.4 percent, largely driven by Georgia Tech. The percentage of out-of-state students with tuition waived declined slightly from 43.0 percent to 40.2 percent. The share of out-of-country enrollees increased slightly from 5.1 to 5.5 percent and the percentage of these students with tuition waived decreased from 46.5 percent to 43.2 percent.

Female enrollment (174,797) continues to be substantially higher than male enrollment (136,143), making up 56.2 percent of total enrollment. The increase in enrollment growth from Spring 2018 to 2019, however, was smaller for females (1.3 percent; 2,216 students) than males (1.9 percent; 2,576 students). Male enrollment has been growing at a faster annual rate than females since Spring 2016.

The number of nontraditional-aged undergraduate students in the system declined by 5.0 percent from 26,550 in Spring 2018 to 25,226 in Spring 2019. This is a smaller decline in nontraditional-aged students than from Spring 2017 to Spring 2018. The average age of undergraduate students (22.5 years old) decreased slightly while it increased slightly for graduate students
